Sheet Metal Handling

PROTECTION WITH KEVLAR® FIBER

DESCRIPTION

PowerGrab® KEV Thermo is specifically designed to provide extra warmth and cut resistance. Just like other PowerGrab® series, the thumb of PowerGrab® KEV Thermo is fully coated for protecting vulnerable area.

FEATURES

Extra Warmth and Cut Resistance

A 10-gauge napped Kevlar® and Acrylic liner provide an excellent warmth as well as out standing cut resistance.

Comfort

PowerGrab® KEV Thermo offers more protection to water penetration. Double coated surface keeps hands clean for water handling.

Grip Performance

With MicroFinish® technology, a soft Latex coating promises its performance under dry and wet conditions.

Kevlar is a registered trademark of E.I. du Pont de Nemours and Company
